The Government crop report published last week related to agricultural conditions as of the beginning of the month. In the fortnight which has elapsed the Government's weekly bulletin has reported only the most auspicious weather generally for all farming purposes, and the agricultural prospect offers every encouragement for constructive undertakings by business men everywhere. The whole world's need of foodstuffs will be great, and the American farmer is assured of highly profitable foreign markets for all the surplus farm production which the country can spare for export. At this season of the year external trade tends toward contraction, but our export trade balance continues to break all seasonable records. While the weekly additions are now somewhat less than in January, February and March, the export balance since the first of December is chair in Mr. Justice Andrews's court an unconscious but irresistible exorabout \$750,000,000, and after a little room in Syracuse on Wednesday. It cism, they "lit out," as Billy might cated German deny that?

again under the stimulus of crop exports and military supplies.

Customary statistical gauges show clearings, the figures of pig iron production, of sidetracked freight car equipment on the railroads and of railroad earnings. Trade and industry have manifestly felt the stimulus of forward impulses, and once American business gains momentum after a long period of decline, depression 25 and inertia, experience proves that 40 the momentum is more likely to be

accelerated than retarded. 75 Crippled corporations are being dis-charged from financial hospitals and 65 steadiness of purpose is displayed by DAILY AND SUNDAY. FREIGHT RATE RAISE FORECAST IN RULING

Commerce Board's Opinion on Cummins Amendment May

NO 10 PER CENT. INCREASE

Mean Relief for Roads.

WASHINGTON, May 13.- The Intelligence state Commerce Commission to-1; handed down a tentative opinion on the so-called Cummins amendment to the act to regulate commerce which seems to open the way for further relected the railroads in the matter of freigh rates.

Although the commission holds the amendment does not automatically as some of the railroads contended, bring into effect a general increase of 10 per cent, in freight rates, it does concede that the new legislation may justify the carriers in making increases under

The Cummins amendment was passed in the closing hours of the recent Congress and was intended as a blow to the This is a great tien, to the guest to the gu

> The commission holds that "applying correct rules of interpretation, the Cummine amendment does not automat ring into effect the increased rates named in the classifications and tariff thich are not made subject to the terms of lading.

Cortain Increases Justified In admitting that certain increases are justified by the amendment the

commission says:
"If in a proper manner and in a proper proceeding it shall be made to oney proper proceeding it shall be made to appear that with regard to any commodities the existing rates do not afford the carriers proper compensation for the services they perform sed McGraw that he would re-The young man kept his promise, them it could hardly be denied that the rates on such commodities might prop to compensate the their added risk and rates are lawfully based on declared values the difference in rates should be no more than fairly and reasonably represents the added increase.

ment to the act affords jus increase in rates on may not lawfully impose rates on one commodity compensate it for risk of curred in connection with portation of another commod here considered are only damage or infury to the proper injury resulting from the ne
